

MASCOMA COMMUNITY HEALTH CENTER

Right Care. Right Cost. *Right Here.*

OFFICERS and BOARD of DIRECTORS

Scott A. Berry, MS, Canaan, PROJECT MANAGER, RECRUITMENT COMMITTEE CHAIR

Scott Berry was the former Chief Operating Officer of the Northern New England Accountable Care Collaborative, LLC (NNEACC). NNEACC was formed in 2012 by three healthcare delivery systems (Dartmouth-Hitchcock, MaineHealth, Eastern Maine Health Systems) and Dartmouth College to develop a new software application suite utilizing advance analytics and predictive modeling to help clinicians and administrators manage patient populations to better health at lower costs. NNEACC successfully developed and launched this suite of tools within a 15-month window; it is actively being used for front line care in four hospital systems.

Before joining NNEACC, Scott was the Senior Director of Value Performance, Measurement, & Patient Safety (VPMPs) at Dartmouth-Hitchcock Medical Center. VPMPs is responsible for regulatory and patient safety performance, quality metrics, and The Value Institute; a program dedicated to improving the capacity of care providers to achieve innovative and sustainable change in the value (quality/cost) of care processes. In addition, Scott guided the development of clinical population health transformation pathways for the Dartmouth-Hitchcock System. The initial five priority pathways are: adult diabetic care, total knee replacement, congestive heart failure, spine care, and adult/pediatric prevention.

Previously, Scott was the AVP Division of Quality & Safety with the Geisinger Health System and had primary accountability for the ProvenCare® program, Geisinger Quality Institute, and regulatory performance and measurement. Scott is a graduate of Williams College, Williamstown, MA and The Dartmouth Institute for Health Policy and Clinical Practice.

Sean Murphy, BS, Canaan

Sean Murphy has served as the Manager of Manufacturing Systems at Timken Aerospace in Lebanon, New Hampshire for the past three years. During his eight years at Timken, his previous roles included Project Engineer, as well as Manager of Process Engineering. Prior to joining the Timken Company, Sean spent five years managing Information Technology in the assisted living industry, as well as various manufacturing and industrial engineering positions in the precision machining, composites, consumer construction, and telecommunications industries.

Sean holds a Bachelor's Degree in Industrial Engineering from the University of Arizona, and is currently pursuing his Masters Degree in Business Administration from Southern New Hampshire University. Areas of expertise include manufacturing, engineering, project management, information technology, data analysis, and business process development.

Sean was raised in Vermont, attended college in Arizona, and has lived in Canaan New Hampshire for the past 11 years with his wife Cecilia. In his free time he enjoys spending time with his family, woodworking, and traveling.

Alice Schori, MPH, Canaan

Recent work experience includes eight years as office assistant at New England Regional Office of the Appalachian Trail Conservancy in Lyme (until spring 2007) followed by seven summers doing botanical surveys for the White Mountain National Forest. I have also done contract botanical work. Currently, I keep busy growing vegetables and fruit, with occasional botanical jobs on the side. Now that I am no longer away most of the summer, I want to be more active in local affairs, and an affordable, high-quality clinic is a great goal to work toward.

Other organizational involvement: Secretary of the Board of Directors of Mascoma Watershed Conservation Council; Past-president of the New England Botanical Club (organization of professional, academic, and amateur plant enthusiasts, keeper of an extensive herbarium of New England plant specimens housed at Harvard University Herbaria, and publisher of the journal *Rhodora*); served on board of Twin Pines Housing Trust in its early years.

Education: AB (Oberlin College), MPH (BUSPH 1983) followed by a brief stint at DMS, working first for John Baron, then Jack Wennberg, before I decided I really didn't want to be a statistician and/or epidemiologist. Before the MPH, I studied therapeutic recreation and worked a year each at a senior center and later at a nursing home.

Dale Barney, Canaan, CHAIR, BOARD OF DIRECTORS, DEVELOPMENT COMMITTEE CHAIR

Dale Barney is the CEO and President of Barney Insurance Agency in Canaan. He is a native of the Mascoma Valley, a graduate of Mascoma High School and lives in Canaan with his wife, Bobbi. He is also the Moderator for the Town of Canaan, past President of the Canaan Lions Club, Chairman/Coordinator of the popular Canaan Lions Club Summer Concert Series On The Common and among other interests, an avid bluegrass musician.

Mike Samson, BS, JD, Canaan, FINANCE COMMITTEE CHAIR, EXECUTIVE COMMITTEE

Mike Samson believes that the availability and affordability of healthcare is one of the most important issues facing families, employers and healthcare professionals. He hopes that his background in non-profits, government, education, law and community health will help to make community health a reality in Mascoma Valley. Mike has been Canaan's Town Administrator for the past 7 years. Prior to Canaan, he was CEO of a plastic manufacturing firm in Milton, NH for 5 years, Executive Director and Chairman of the Board of Northeast Resource

Recovery for 6 years, District Manager of Rutland County Solid Waste District in Vermont for 11 years, Town Manager in Castleton, VT and Town administrator in Poultney, VT for 3 years, practicing attorney for 30 years, middle school and college teacher and school administrator in Washington Northeast Supervisory Union (Plainfield, VT) for 4 years. While in Plainfield, he helped to start Northeast Washington County Community Health: The Health Center - a federally qualified health center, serving six towns in Central Vermont with 14,000 patients. He served as Chairman of the Board for several years. He serves on the Upper Valley Public Health Advisory Council and ReThink Health. Mike's wife and two of his four children are involved in healthcare.

Peter Thurber, BS, M.Ed, MPH, Canaan, VICE CHAIR, BOARD OF DIRECTORS, EQUIPMENT AND TECHNOLOGY COMMITTEE CHAIR, EXECUTIVE COMMITTEE CHAIR

Lifelong New Hampshire residents, Peter and his wife Amy moved to the Upper Valley in 1998 and have lived in Canaan since 1999.

Peter has extensive background in several domains of health care practice, policy, and administration. He has been a Certified Athletic Trainer for 16 years and has worked locally at the Cardigan Mountain School where he was the school's first Athletic Trainer; designing and developing their first sports medicine program. Following this, Peter returned to school for a Master's degree in Education from Plymouth State University where he practiced and taught for two years before becoming a Clinical Assistant Professor at Colby-Sawyer College; teaching sports medicine in their Athletic Training Education Program for 8 years. During this time, Peter taught coursework in clinical medicine and health care administration and served as President of the New Hampshire Athletic Trainers' Association.

Recently, Peter returned to school and obtained a Master's degree in Public Health from The Dartmouth Institute for Health Policy and Clinical Practice (TDI). He currently works and teaches in the Educational Programs at TDI as a Curriculum Specialist and Course Director. There he helps students, faculty, and staff with their shared mission to understand the intersection of the US healthcare system with the health of communities and to promote policies and programs designed to improve quality, increase access, and control costs.

Tim Jennings, Enfield

Director of Facilities and Planning, Cardigan Mountain School in Canaan, NH since 2013. US Navy: 1978-1985, enlisted, then ROTC, BS - Marine Engineering, Maine Maritime Academy, Castine, ME. Moved to Upper Valley in 1989 and served as Town of Enfield, NH, Utilities and Public Works Director, 1989-1998. I'm volunteering to serve on the board because I truly believe that the health care delivery model being advanced will be a key part of the answer to our nation's health care challenge of providing quality service at a price people can afford. I am impressed with the quality of the board and the leaders who are driving the project forward, and look forward to assisting to the level my experience will permit.

Curtis Payne, BS, JD, Enfield

Curtis is a graduate of the University of California at Los Angeles and Harvard Law School. He has been a practicing attorney since 1995 and has practiced in Enfield since 2002. His experience has been in corporate defense, trademark and copyright law, family law, estate planning and entertainment law. Curtis served in the Navy for six years and worked with and taught electronics and microprocessor theory. He is a former professional guitarist, plays most sports and is a ranked chess player. Curtis is a member of the Order of Freemasons, the Benevolent Protective Order of Elks, the American Mensa Society, the Enfield Outing Club, and the American Legion. He has served on the Upper Valley Habitat for Humanity Board of Directors, Town of Enfield Zoning Board of Adjustment, Town Chair of the Enfield Democratic Party, and Selectman for the Town of Enfield. He currently is the Founder and Chairman of the Board of Directors of Enfield Channel 8, cable access television station.

Karen Wolk, AB, MSW, MBA, Canaan

I am a retired social worker who worked for hospitals and non-profit organizations that help people deal with health issues including cancer, Alzheimers Disease and Marfan syndrome. I moved to Canaan from Long Island in 2007, moved to Keene in 2015, and very happily returned to Canaan in December 2017.

I am happy to volunteer for the Mascoma Community Health Center because my many years working in the healthcare field has shown me the importance of easy access to quality, affordable medical care. As a place focused on health and dental care for our community, in our community, I believe the Center has important potential to support and improve the lives of those who seek care there. I am pleased to offer my time and experiences to help the Center be an important resource in the Mascoma Valley.

Denis Salvail, Canaan

Denis has been a resident of Canaan for 38 years and has been a builder for 40 years. He is interested in quality, affordable healthcare. Denis has been a member of the Canaan Town Budget Committee for ten years and cares deeply for his community and neighbors. Denis, his wife Julie, his children Melissa, Jennifer, Philip and Heidi live and work in Canaan. Denis helped manage the construction of the health center and is the Board member responsible for the physical plant. Denis has also assisted with fundraising over the past 4 years.

Ashley King, MPH, Enfield

Ashleigh King was born and raised in Enfield and graduated from Mascoma Valley Regional High School in 2008. She attended Smith College where she received a BS in Engineering Sciences. After college, Ashleigh spent three years working as a Sales and Product Engineer at New Hampshire Industries before deciding to follow her lifelong interest in health care. In 2015, she joined The Dartmouth Institute Microsystem Academy as a program coordinator and decided to pursue her Master's in Public Health as a member of The Dartmouth Institute's first class of the online MPH program, which she completed in

June 2018. Ashleigh recently took a new position at The Dartmouth Institute as a research project coordinator with a team who studies prescribing practices across healthcare systems.

Ashleigh believes that everyone is entitled to accessible, affordable, quality care and is encouraged by the success of the team who has made the Mascoma Community Health Center a reality in our community. She looks forward to contributing her knowledge and skills in public health to support the mission and sustainability of the Mascoma Community Health Center. In her free time, Ashleigh enjoys hiking, biking and skiing and takes her dog, Lucy, along whenever possible.

Andrew Ware, Grafton

Andrew was born in Hanover and grew up in Hanover. He worked in the family automotive industry and as a Fire Fighter for many years. After moving to Canaan, he was employed in law enforcement and served as a criminal prosecutor. He was a founding member of the Canaan FAST Squad and served on its Board. Andrew also provided training and education to the rescue squad members. During this time, he also received extensive training in law enforcement and medical areas. Andrew served in the New Hampshire House and on the Executive Department and Administration Committee. In that role he also served on the Grafton County Legislative Delegation. Andy has been a resident of Grafton for more than 10 years and has been employed in construction, appliance sales and installation and most recently providing equipment and services to health clinics and government agencies.

Louis Shelzi, Orange

I have lived in Orange for the past 23 years with my wife and two children. I have been involved in healthcare for the past 18 years at Dartmouth-Hitchcock in finance and clinical operations and I am currently the Director of Business Administration in the Value Institute at D-H. The departments in our division are responsible for patient and employee safety, as well as patient experience and performance improvement. I have a greenbelt in Lean Six Sigma from the Thayer School of Engineering at Dartmouth.

My prior work experience includes commercial banking and finance. I graduated with a degree in English from Boston College and I have a MBA from the University of Notre Dame. I have been on a number of boards in the past including David's House and the Friend's of Norris Cotton Cancer Center. I have been involved with 4-H for the past 12 years with 10 of those as the organization leader for the Cardigan Mountain Bobcats. I am also a member of the Friend's of Mount Cardigan State Park.

I like to give back to the community and I believe strongly that access to affordable healthcare improves the lives of individuals as well as the community. I look forward to being a part of the success of the Center.
